

**Gurit to Showcase Product Portfolio at  
Aircraft Interiors 2013, Hamburg**

**5<sup>th</sup> April 2013, Isle of Wight, UK** - Gurit, a leading global manufacturer and supplier of composite materials, engineering, tooling, parts and systems is showcasing its latest product and technology innovations at Aircraft Interiors 2013. The exhibition takes place from Tuesday 9<sup>th</sup> April to Thursday 11<sup>th</sup> April at Hamburg Messe, Germany and is the world's largest event dedicated to the aircraft interiors industry.

Gurit has been an innovative partner to the global aviation industry since 1985, supplying materials for use in a wide range of components. Staff will be available at the show to discuss today's product portfolio designed for tomorrow's aircraft.

**Gurit's Aerospace Product Portfolio:**

**PB 1000:** This "eco"-alternative for interiors complies with the latest FST requirements and combines an outstanding surface quality, with near-zero warpage, improved mechanical properties and short curing cycle.

**EP 137:** This low smoke density epoxy system combines highest mechanical performance with improved FST properties.

**EP 121:** Epoxy systems curable in combination with phenolic systems.

**PF 811:** Low volatile content phenolic system for fast curing processes with excellent surface quality.

**PN 900:** Cyanate ester system with epoxy-like surface, fire retardancy at phenolic level and high-temperature resistance.

**PN 901:** Cyanate ester system with extreme temperature resistance, outstanding surface quality, strong FST performances.

**EH 420C:** A fast curing epoxy system with very short curing cycle and excellent surface quality.

**EH 250:** A toughened epoxy system for highest impact resistance.

**EP 500:** Tooling system for improved life cycle, perfect surface quality and easy manufacturing of your tools.
