

Gurit (India) expands its team of composite experts.

Meet the team at the India Composites Show 2013, Stand F4.

23rd October 2013, Gurit (SIX Swiss Exchange: GUR), a leading global manufacturer and supplier of composite materials, systems and engineering, will present its comprehensive range of products and services at the India Composites Show 2013 in New Delhi this week.

The Gurit group has proven and established products and technology for a range of sectors, such as marine, construction and transportation, and these are now available to the Indian market, as well as the established wind energy solutions that Gurit (India) has become known for. An example of Gurit solutions for the transportation sector, the composite bumper section of the 'New Bus for London', will be on display at the show. Please visit Gurit's stand F4 for more information about this project.

At the show, Gurit (India) Pvt. Ltd. will introduce its new sales staff members who have joined the team to provide support and assistance to composites users across the country.

In addition, Gurit has appointed Link Composites Pvt. Ltd. as its agent for the southern and western regions of India. The two companies will work together to provide the highest quality composite solutions and excellent service levels to customers.

"We are delighted to be working with Link Composites in the south and west of India," says Mr Prashant Kshirsagar, Gurit Head of Sales and Business Development in India. "Their established supply position in the marketplace, combined with the depth of technical knowledge of our newly expanded Gurit team, provides us with the building blocks for an exciting future. We look forward to being a strong contributor to the growth of the Indian composites industry."

At the show, Gurit is also delighted to be taking part in the panel discussion entitled: "How is the global economic scenario affecting the Indian composites market?" The panel discussion will take place at 3pm on Thursday 24th October.
