

## **SP-High Modulus to exhibit at IBEX 2012, Louisville, USA**

**2 October 2012, Isle of Wight, UK** – SP-High Modulus, the marine business of Gurit, will be exhibiting at the International Boatbuilders Exhibition and Conference (IBEX) in Louisville, Kentucky. IBEX is the premier marine technology and networking event in North America, attracting thousands of decision-making professionals from all segments of the boating industry.

Exhibiting at booth number 1543, staff will be on hand to guide customers through the range of advanced composite materials and engineering services available from SP-High Modulus. Products promoted at the exhibition will include SP-High Modulus' full range of core materials, including G-PET, Balsaflex<sup>®</sup>, **Corecell™** and PVCell<sup>®</sup> G-Foam.

Also available at SP-High Modulus booth will be the latest edition of Advantage magazine. Advantage is SP-High Modulus' marine magazine that highlights a number of articles on the latest boat building projects involving SP-High Modulus' advanced composite materials and engineering. Included in this latest edition are articles on US-based projects, The SpeedDream project, a radical sailing yacht aiming to be faster than all sailing monohulls built to date and The Greenough Advanced Rescue Craft or G.A.R.C, a small craft developed for a multitude of applications.

To find out more about SP-High Modulus's products and services visit booth 1543 in the Composites Pavilion.
